This game is very solid for what it's worth. Some people might call this an old school game because of the graphics, but you can't judge a book by its cover. The gameplay is all that matters and I feel like this ARPG delivers.

<https://www.youtube.com/watch?v=k5IvLxcxKjc>. Very borring. Even though this game is not that expensive, I want my money back.

[Don't waste your money on this game.. Very enjoyable game, one of the things I would make sure to do is up the quality options in the video settings, I have a 1070 and my settings were on very low when I started the game.](#)

[Thanks to Kingdom Games for another great game.. Great game for when you just want to create a little chaos. The game has several different ways you can play. Can't wait to see more of this game in the future.. Great little game for the price. Very nice and refreshing setting \(no zombies!\). I hope the devs are successful and we get to see more games in the biblical setting, because the possibilities for games there are endless.](#)

[Gameplay- well, the game certainly does not re-invent the wheel. Very straight forward gladiatorial arena combat. I feel the combat is satisfying and the sound effects are good, although the smacking and bone crushing sounds of the mace take the cake in realism. I have not really figured out the different class system yet. As far as I understand, the beginning classes seem to be purely cosmetic \(different colours\) and you can train up your hero to fight with any weapon later on. Using different weapons gives you different special abilities.](#)

[The game even encourages you to try out different weapons and styles which I think is needed to keep the gamplay fresh and interesting \(because you will be fighting in the same arenas again and again\).](#)

[Loot is collected at the end of each arena round and has so far been interesting.](#)

[So far, in general, I found the game entertaining and addictive enough that I did not feel bored.](#)

[At the time of writing this, some minor bugs still exist with achievements and screen resolutions, but the devs are onto it and are putting out patches.](#)

[If there is one big downside, it is the enemy variety. Yes, they repeat. A lot. Not as bad as I thought it would be, but still.](#)

[So these are my thoughts.](#)

[In general, a very entertaining little game for short gameplay sessions.](#)

[Great to see some singleplayer gladiator combat, that is not very common at all. And it has no zombies. Always a bonus. I assume zombies are not really biblical, except.... can you call Lazarus a zombie? Maybe not.](#)

[. For \\$5, it is an insane bargain for hours of entertainment. I would sacrifice a can of beer for this game :\). The gameplay is pretty solid. You play as a warrior competing in gladiator style wave-based combat arenas. You choose from a variety of weapons which each come with unique skills you learn as you progress. After each round you fight a boss, and then get rewarded with a chest filled with loot. Visually the game looks good with some nice shadows, lighting, and various particle effects.. Plenty of content. Many elements remind me of other ARPGs like Diablo/Path of Exile/Grim Dawn, such as all the modifiers or stats that come with every weapon which is displayed in various statistics on your character spreadsheet. Furthermore, many of the classes & skills remind me of skills from Diablo 3. Like whirlwind and rapid shot.](#)

[It can be repetitive and slight balance issues but overall a great game. Recommended.](#)

boring gameplay and story.. A combat ARPG game where you fight waves of enemies till you prove your dominance over them all, a decent amount of weaponry and equipment, all visible on your character in decent graphics and visuals. The gameplay is smooth and solid, the combat is unique, challenging and fun. For a cheap pricelike this, it can't be any better.

. An arena based action RPG very much in the style of Diablo. The depth of Champion of Canaan's weapon and ability systems is ultimately wasted on broken, repetitive and mindless combat.
